Description

This is the Northgate home that you've been waiting for! With its courtyard entry, it has lovely curb appeal and is located on a really pretty street. It has been updated throughout and has hardwood floors in the living, dining, and family rooms, a granite kitchen with stainless steel appliances, updated baths, and a newer roof and windows. The master bedroom overlooks the backyard and the three secondary bedrooms are good sized. The kitchen and family rooms overlook the backyard and pool, providing for a perfect flow for entertaining. The backyard is wonderful with a lovely pool, patio, lawn area, and beautiful gardens. Children attend the highly regarded Northgate schools, with 'home' schools being Walnut Acres, Foothill Middle, and Northgate High. This home is move-in ready and waiting for your family! It is planned to be on the market the week of July 20, but please do contact Cindy if you'd like additional details in advance.
